

Stage 3

Term 4 Week 3

DAILY SCHEDULE

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
	Check in	Check in	Check in	Check in	Check in
Morning	Daily 5	Daily 5	Wellbeing Wednesday!  Spend time with family  Stay physically active Do activities you love   Get enough sleep and rest	Daily 5	Reading and Comprehension
Middle	Maths	Maths		Maths	Maths
	Brain Break	Brain Break		Brain Break	Brain Break
Afternoon	Integrated Unit	Library with Mrs McPhan		Science and Technology (Mr Quigley's Google Classroom)	Integrated Unit

There is nothing
in a caterpillar
that tells you it
is going to be a
butterfly.

How am I feeling today?

DAILY 5

Week 3

Activities Checklist!!

Quality Work

Make sure you are completing all of the activities and that your work is **quality**.

Set a timer. Work for the **WHOLE** amount of time required.

Check your work before turning it in.

Spelling:

	List	Activity
Tuesday	<input type="checkbox"/>	<input type="checkbox"/>
Thursday	<input type="checkbox"/>	<input type="checkbox"/>
Friday	<input type="checkbox"/>	<input type="checkbox"/>

Work on Writing:

- ☐ Read information
- ☐ Look at examples
- ☐ Research facts
- ☐ Sizzling Starts

To Do

- ☐ Read to self #1 & Reading Response
- ☐ Read to self #2 & Reading Response
- ☐ Listen to Reading
- ☐ Read to Someone

SPELLING

SPELLING INSTRUCTIONS

Monday

1. Read the rule
2. Type and check list words
3. Complete Phonological Activity

Tuesday

1. Type and check list words
2. Complete Morphemic Activity

Thursday

1. Type and check list words
 2. Complete Etymological activity
- 

WEEK 1: SPELLING RULE

Phonological	<p>/ee/ sound made by ie or ei.</p> <p>Usually, the rule is i before e except after c.</p>
Morphemic	<ul style="list-style-type: none">• Adding the suffix, -ful to the end of a word means it is “full of something”.• Adding the suffix, -less to the end of a word means it is “without something”.
Etymological	<p>gram (Greek) → something that is written or drawn.</p> <p>graph (Greek) → to draw or write.</p>

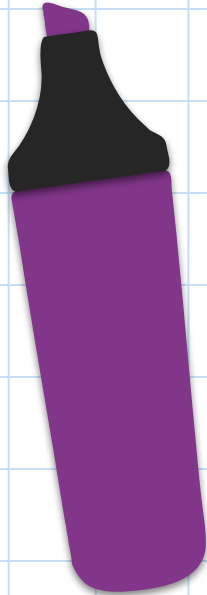

WEEK 1: SPELLING LIST

Sight words	Phonological	Morphemic	Etymological	Theme	Extension
saw sing sit think us	<div><div>grief conceit receive</div><div>mischievous inconceivable</div></div>	<div><div>joyless hopeful beautiful</div><div>hopeless playful</div></div>	<div><div>program graphic phonograph</div><div>epigram calligraphy</div></div>	<div><div>reflection challenge strength</div><div>limitation emotional</div></div>	<div><div>charming comical</div><div>condone ruffian trivial</div></div>

Type your Monday list here...

--	--	--	--	--

T4 W3 Phonological spelling activities

Complete the words by using the letters ie or ei.

bel__ve

rec__ve

ach__ve

w__rd

h__ght

rel__ve

n__ce

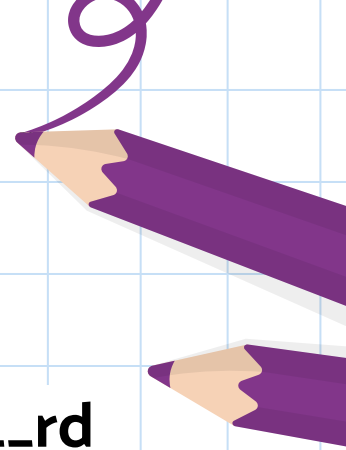

bel__f

c__ling

for__gn

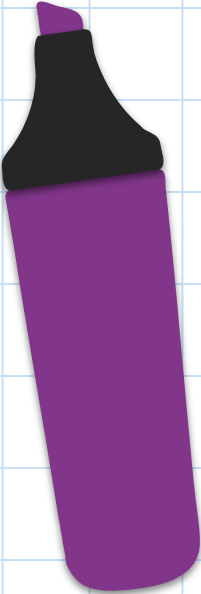

r__gn

rec__pt

Type your Tuesday list here...

--	--	--	--	--

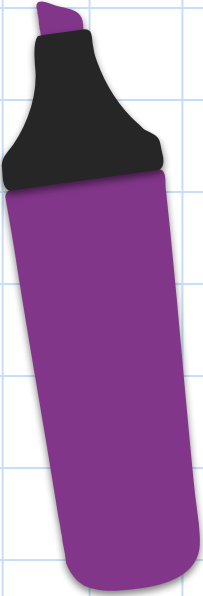

T4 W3 Morphemic spelling activities

Write the base word for these adjectives.

<u>adjective</u>	<u>base word</u>	<u>adjective</u>	<u>base word</u>
skilful	skill	colourless	colour
beautiful		painless	
awful		thoughtless	
wilful		careless	
plentiful		helpless	
fanciful		hopeless	

Type your ThursDay list here...

--	--	--	--	--

T4 W3 Etymological activity

Match the definitions with the word. Can you think of examples?

1. program 2. graphic 3. phonograph 4. epigram 5. calligraphy

<u>Word</u>	<u>Definition</u>
	relating to visual art, especially involving drawing, engraving, or lettering.
	a short poem, especially a satirical one, with a witty or ingenious ending.
	write computer code,
	also called record player, instrument for reproducing sounds by means of the vibration of a stylus, or needle, following a groove on a rotating disc
	the art of producing decorative handwriting or lettering with a pen or brush.

WORK ON WRITING

Day 1

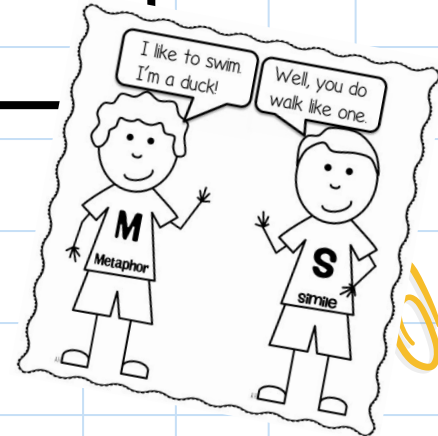

Ogres are like onions

Figurative Language

Find definitions for the following literary devices.

Simile

Metaphor

Figurative Language

Excerpt From:

“Speak Now” by Taylor Swift

And she is yelling at a bridesmaid
Somewhere back inside a room
Wearing a gown shaped like a pastry

And the organ starts to play
A song that sounds like a death march.
And I am hiding in the curtains.

She floats down the aisle like a pageant queen.
But I know you wish it was me.

Carefully read the lyrics from the Taylor Swift song.

There are examples of similes and metaphors can you find them all and write them in the table below.

Simile	Metaphor

Figurative Language

Excerpt From:

“Life is a Highway” by Rascal Flatts

Life's like a road that you travel on
When there's one day here and the next day gone
Sometimes you bend, sometimes you stand
Sometimes you turn your back to the wind

Life is a highway
I wanna ride it all night long

Carefully read the lyrics from the Rascal Flatts song.

There are examples of similes and metaphors can you find them all and write them in the table below.

Simile	Metaphor

Song Research

Research current top 50 songs and see if you can find examples of similes and metaphors.

Record the artist and the examples from the song.

Song & Artist	Simile Example	Metaphor Example

WORK ON WRITING

Day 2

Figurative Language

Find definitions for the following literary devices.

Hyperbole

Personification

Princess Hyperbole

I am at least a million times prettier than all of the other princesses in the world.

PersonifiKate

My hair gently kisses my forehead. My dress dances in the wind.

Figurative Language

Excerpt From:

“Just the Way You Are”

by Bruno Mars

Oh, her eyes, her eyes make the stars
look like they're not shining
Her hair, her hair falls perfectly without
her tryin'

And when you smile
The whole world stops and stares for
a while
'Cause girl, you're amazing
Just the way you are

Carefully read the lyrics
from the Bruno Mars
song.

Can you find the
examples of hyperbole in
the song?

Figurative Language

Excerpt From:
"Boulevard of Broken Dreams"
by Green Day

I walk a lonely road
The only one that I have ever known

Where the city sleeps
And I'm the only one and I walk alone

My shadow's the only one that walks beside
me

Personification

Carefully read the lyrics
from the Green Day song.
Can you find the examples
of personification in the
song?

Song ReSearch

Research current top 50 songs and see if you can find examples of similes and metaphors.

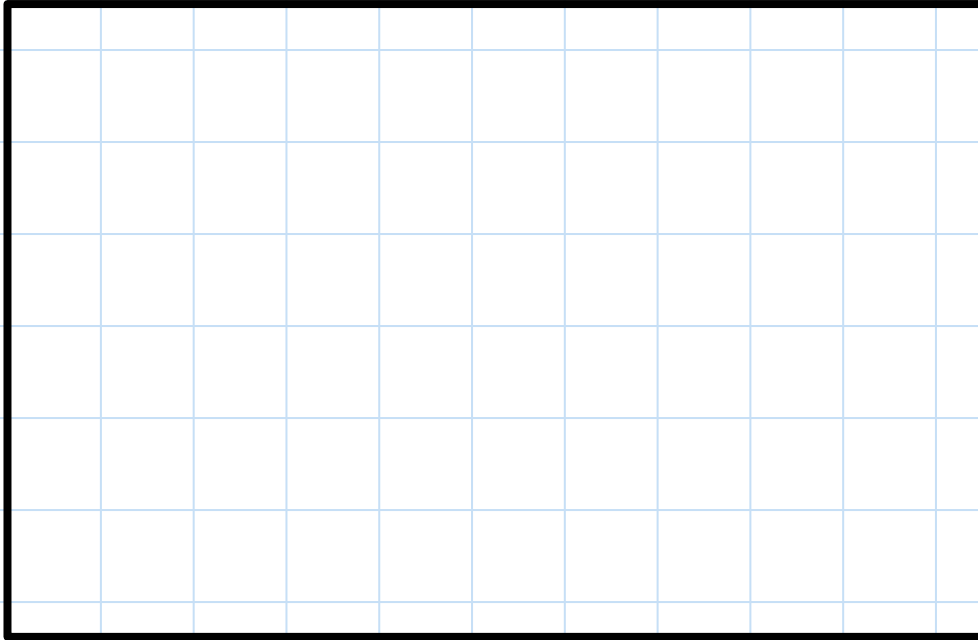

Record the artist and the examples from the song.

Song & Artist	Hyperbole	Personification

Song Writing

Using your knowledge of similes, metaphors, personification and hyperboles can you try and write your own lyrics using a range of these figurative language devices.

Write your song in the box below.

Does your song include?

Simile

☐

Metaphor

☐

Hyperbole

☐

Personification

☐

WORK ON WRITING

Day 3

Poetic Sound Devices

Find definitions for the following literary devices.

Alliteration	
Onomatopoeia	
Consonance	
Assonance	

Poetic Sound Devices

Match the examples with the correct sound devices listed below

I must confess
that in my
quest I felt
depressed and
restless
~Thin Lizzy

all mammals
named Sam
must be
clammy

tick-tock,
click, clack,
drip, drop,
sizzle

I have stood
still and
stopped the
sound of feet
~Robert Frost

onomatopoeia

alliteration

assonance

consonance

READ TO SELF

READING INSTRUCTIONS

Twice a week

1. Read for at least 20 minutes - use the timer on the next slide.
2. Record your reading in your reading log, which is also on the next slide.

Complete two reading responses.

1. Choose a reading response
2. Copy the question onto the answer slide, answer the question thoughtfully and in full sentences.

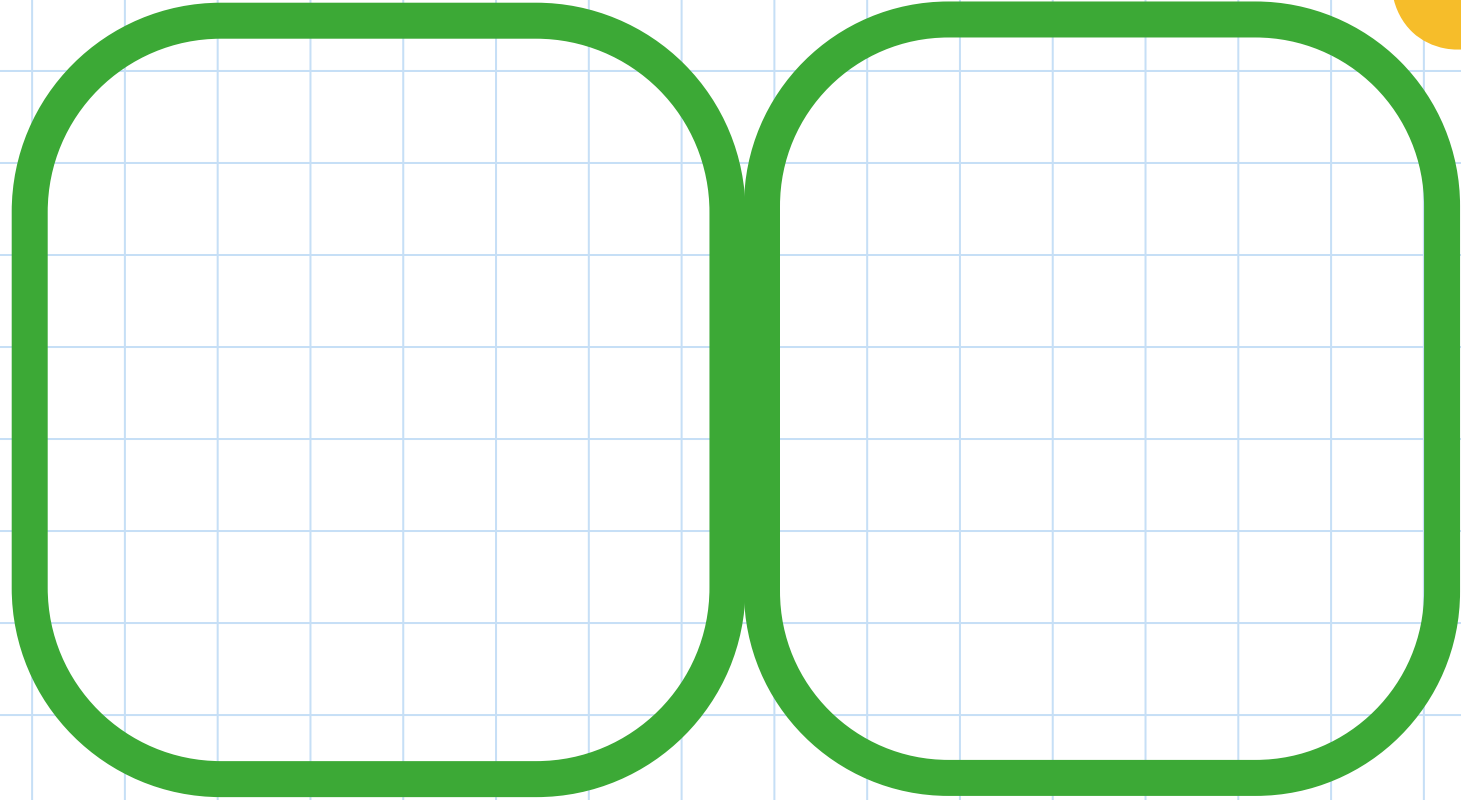

READ TO SELF - READING LOG

DATE	TITLE	AUTHOR	PAGES READ

READ TO SELF - READING RESPONSES

<input checked="" type="checkbox"/> Do you think the title fits the book? Why or why not? What could another title be?	<input checked="" type="checkbox"/> What was the author's purpose for writing this book? What is the genre? Explain your reasoning.	<input checked="" type="checkbox"/> Did you find this book to be interesting and hold your attention? Why or why not?
<input checked="" type="checkbox"/> Do you think this book would make a good movie? What events/characters would you add or remove? Explain.	<input checked="" type="checkbox"/> Who should or should not read this book? (Think: audience) Explain your recommendation.	<input checked="" type="checkbox"/> What is the most important word, sentence or phrase of your book or text? Explain.
<input checked="" type="checkbox"/> Why did you choose to read this story or text? Explain your reasons.	<input checked="" type="checkbox"/> What parts of the book seem most believable? What seems unbelievable? Explain.	<input checked="" type="checkbox"/> How would the text be different if it were told in a different time period?

READING RESPONSES

Think about your answers carefully & write in full sentences.

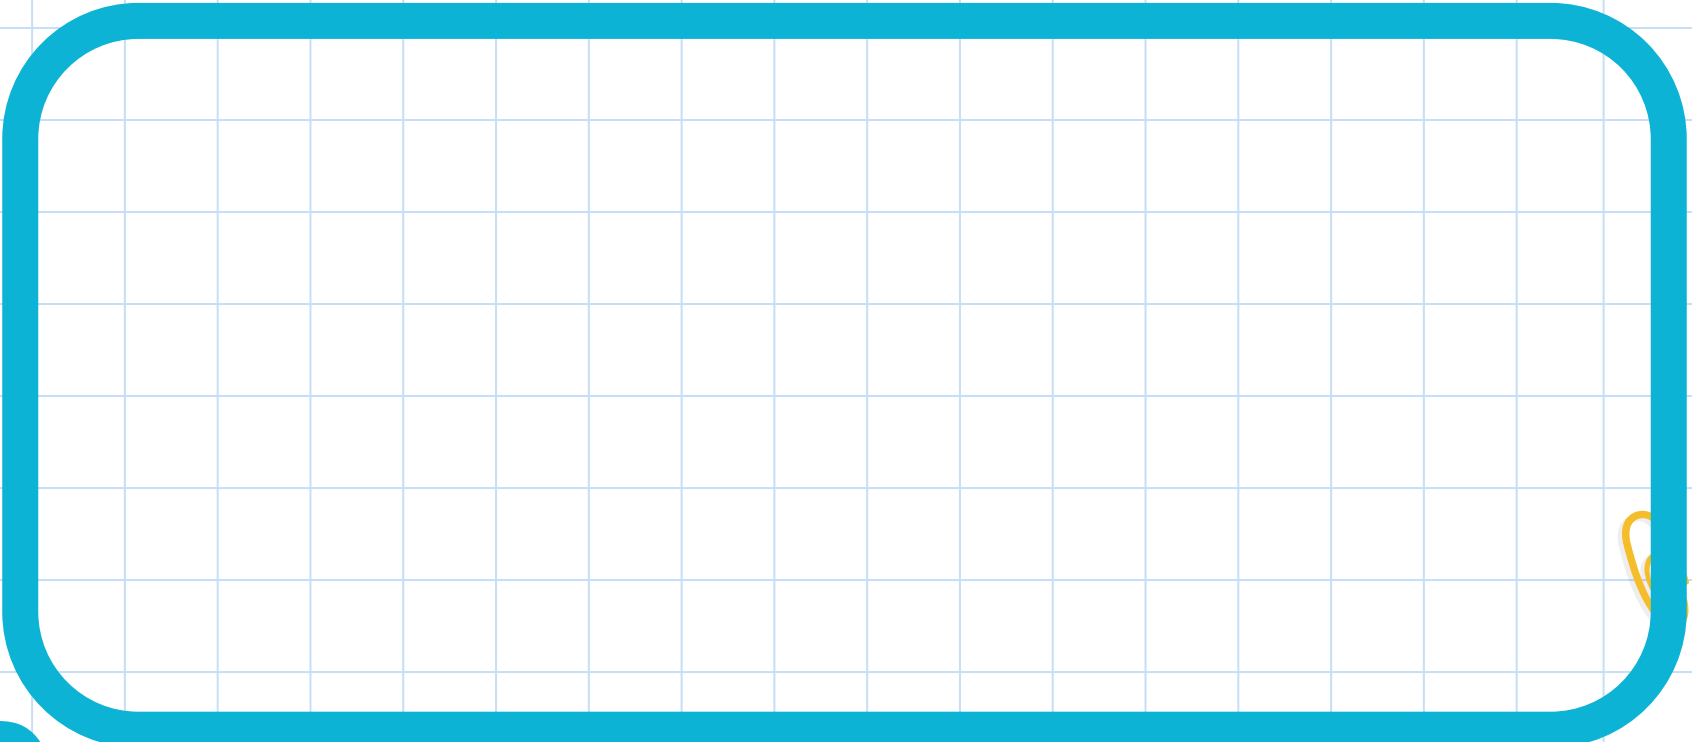

LISTEN TO READING

LISTEN TO READING INSTRUCTIONS

SQUIZ
KIDS

1. **Listen** to the Squiz Kids Podcast (<https://www.squizkids.com.au/>)
2. Or listen to something on the radio or TV
3. Write a **summary** of one thing you learned

READ TO SOMEONE

READ TO SOMEONE INSTRUCTIONS

1. Find a someone, or a something!
2. Click on the link & use the code to log in.
3. Choose a poem to read!

[Click Here: The School Magazine](https://theschoolmagazine.com.au/activities/c49c5753-febb-4068-b21c-28cae6ff0fa7)

<https://theschoolmagazine.com.au/activities/c49c5753-febb-4068-b21c-28cae6ff0fa7>

CLASSROOM CODE: F7N48D

BONUS SLIDE!

What do you meme?

Write a caption for this photo.

MATHS

Week 3

The background is a solid green color. It is decorated with various mathematical symbols in a lighter shade of green, including plus signs, minus signs, multiplication signs, and division signs, scattered across the entire surface.

Week 3

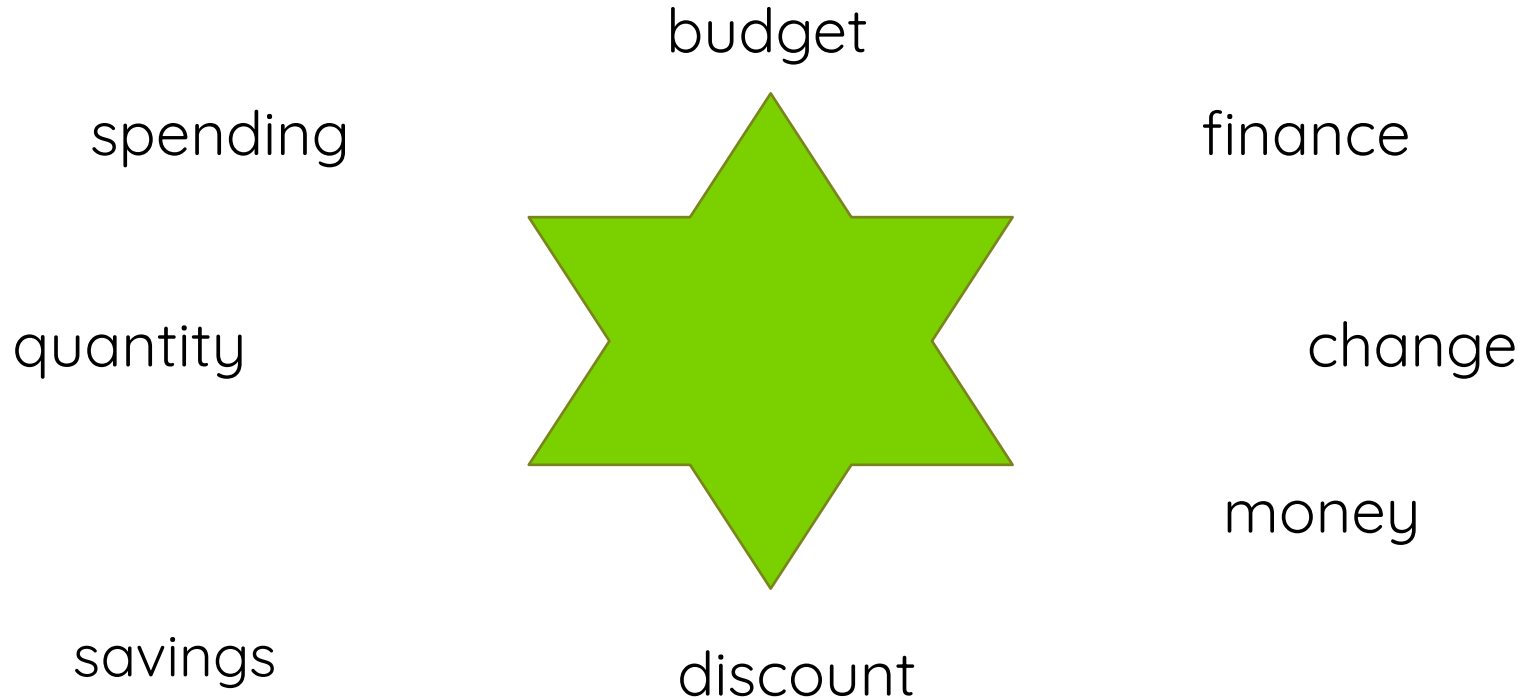

Addition and Subtraction and Financial
Literacy

MONDAY

Lesson 1

	Yellow	Green	Blue	Purple
Learning Intention	We are learning to create a budget and calculate our spending.		We are learning to create a more complex budget, plan our spending and modify a savings plan.	
Success Criteria	I can spend within my budget.	I can estimate costs, plan a budget and keep to it.	I can create a savings plan and keep to a budget.	I can create a savings plan for an event, estimate costs, plan a budget and spend to it.

Vocabulary

Warm-up

Yellow

Green

Blue

Purple

1. Look at the menu to calculate the total bill. Tegan bought a slice of cake, 3 pies and 2 drinks. How much change did she get from \$50?

2. If you had \$15.00 how would you spend it? Calculate the cost. How much change would you have?

MENU

Cake: \$5.75 a slice

Pies: \$6.40 each

Drinks: \$2.90

Guided Activity

Yellow

Green

Blue

Purple

Go to the following link (ABC Education/Mixed Up Maths)

<https://iview.abc.net.au/video/CK1511H012S00>

Consider the following questions while you view the video:

How does the host plan to spend his \$100? What amount is he planning to spend on each attraction?

The human cannonball was \$50 but how much with a discount of 10% off?

Two lions were \$80. How much with a discount of 50% off?

What do you think of his budget and how he spent his \$100?

Reflection Questions:

In what ways is a budget useful?

If you had \$100 to spend on gifts for your family how would you plan to spend that? Write down some suggestions for gifts with their approximate costs.

Money Problems?

Question	Working Out/ Answer
A chicken wrap costs \$4.95. Avocado costs 75c extra and tomato costs 50c. How much for two chicken and tomato and avocado wraps?	
Andrea bought 1 cricket bat and 4 cricket balls. How much change did she get from \$200? cricket bat: \$88.00 cricket balls: \$14.00 each	
The price of each pie is shown. Steak: \$4.10 Chicken: \$4.75 Vegetable \$3.85 How much for 2 steak pies, 2 chicken pies and 1 vegetable pie?	
Sung wants to buy two new soccer balls for \$39.50 each. So far he only has \$53.00. How much more does he have to save?	

Grocery Time

Using the Coles Catalogue PDF do the shopping for the week. Record your spending on the following slides.

Your budget is \$140.00

How much money did you spend?

How much money did you save?

[illegible]

Item	Individual Cost \$	Quantity	Total Cost \$

Item	Individual Cost \$	Quantity	Total Cost \$

Total Cost:

Total Saved?

Is this enough food to feed your family for the week?

How much do you need you would need to spend per week to feed your family?

Coles Catalogue

Using the Coles catalogue calculate the cost of the following.

Question	Working Out/ Answer
3 x Australian Kensington Pride Mangoes 1 x Nestlé Milo 700g 2 x Vege Deli Crisps 100g	
1 x Slow Hills Free Range RSPCA Approved Whole Chicken 4 x Chobani Fit X Yogurt 140g 2 x Coles Australian Free Range Eggs 12 Pack 700g	
I want beef burgers for dinner. Find and calculate the cost of the ingredients.

CUB BARE

nurturing better

Our commitment to tomorrow.

We're here to help you protect and care for your little cub as they play, learn and grow, but we also recognise that planning for the world they will live in tomorrow is just as important. That's why to help busy parents make small steps to care for their baby today and into the future, our range of CUB BARE wipes are made with oatmeal extract and biodegradable* bamboo fibre.

It's our pact to create real impact.

Lesson 2

	Yellow	Green	Blue	Purple
Learning Intention	We are learning about the history of money, to understand the meaning of money words and to describe what can be done with money			
Success Criteria	I can spend within my budget.	I can estimate costs, plan a budget and keep to it.	I can create a savings plan and keep to a budget.	I can create a savings plan for an event, estimate costs, plan a budget and spend to it.

What is Money?

Money and Finance History of Money

Today we take money for granted. We use coins, bills, checks, and credit cards without giving them a second thought. We depend on our money to hold its value and to buy things for us when we need them.

The history of money spans thousands of years from bartering and the first coins to credit cards and electronic money.

Bartering

The oldest way of doing business did not involve any money at all. People would trade goods. For example, if a person wanted a chicken, they would offer another good, perhaps a dozen apples in exchange. Once both parties agreed, they would make the trade. This form of trading was difficult and inefficient, however.

Early Money

As advanced civilizations developed, people around the world began to use money. Different regions used different types of items as money including cowry shells, salt, cattle, beads, grains, and durable metals. Over time, many societies began to use metals such as gold and silver for money. Metals were durable and could be weighed to verify their value.

The First Coins

Between 600 and 700 BC, larger cities and civilizations began to use coins made from metal. Early coins were made of all sizes and shapes. Some coins had holes in the center so they could be carried on a string. Eventually, coins were minted by the local ruler or king. These coins were more precisely made and had a stamp on them saying that they were backed by the king. These coins allowed for easier commerce as they didn't have to be constantly weighed.

The First Paper Money

Paper money was first invented around 600 AD in [China](#). However, it wasn't commonly used as money in China until around 1000 AD. It took a lot longer before paper money was first used in [Europe](#). Banks began to issue banknotes in the 1600s in Europe. At first a banknote was really just a promise that the bank would give the bearer a certain amount of coins. Eventually the banknotes began to be used as money.

First U.S. Money

The first U.S. paper money was Continental Currency which was printed to help finance the Revolutionary War. After the war, the Continental became worthless and coins continued to be the main form of money. During the Civil War, coins became scarce and the government began to print paper money again. This money was printed with green ink on one side and became known as greenbacks. At first, people still didn't like using paper money, but then the government said they would back the money with gold and paper money became more commonly used.

Credit Cards

Credit cards were first issued in the 1950s and 1960s. In 1958, Bank of America issued a card that would later become Visa. A number of other banks launched a rival card, MasterCard, in 1966. Credit cards have since become one of the most common forms of payment.

Interesting Facts About the History of Money

- The term "credit card" was first used in the 1888 science fiction novel *Looking Backward*.
- The first minted coins are thought to have been made in Ancient Turkey in the Kingdom of Lydia around 600 BC.
- Some early Chinese paper money is said to have had the warning "all counterfeiters will be decapitated" printed on it.
- In Ancient Japan wealth was measured using the koku, which was a unit of rice equal to what one man would eat in a year.

History of Money

1.	Before notes and coins, if you wanted a banana you might have to swap an apple for it. What is this system of swapping things called?	
2.	Before notes and coins, if you had potatoes and wanted flour, how could you get flour if the person with it didn't want or need potatoes?	
3.	Using notes and coins of today, how much money do I have if I have four \$10 notes, one \$5 note and three 20c coins?	
4.	Today if you want to buy something, are notes and coins the only way you can pay for things?	

Money Matching Words

Definition	Word
A plan you make to keep track of how much money you spend and where you spend it	
Money that you don't spend right away, but instead keep for later	
Payments that go to the government to pay for essential services like schools, roads and hospitals	
The place where your money is kept	
Money that you owe to someone and that you need to be pay back	
Something you spend money on that you believe will make you more money in the future	

Word Bank: bank, investment, debt, savings, budget, tax

Money Problems?

Question	Working Out/ Answer
Shane saved \$97.40 for a computer game. If the game costs \$179. 90, how much more does she have to save?	
Santos bought 2 kg of apples at \$5.75 a kg, 2 kg of oranges at \$3.75 a kg and 1 watermelon which was \$5.95. How much did Santos spend?	
Look at the menu to calculate the total bill. Tegan bought a slice of cake, 3 pies and 2 drinks. How much change did she get from \$50? Cake: \$5.75 a slice Pies: \$6.40 each Drinks: \$2.90	

Money Problems?

Question	Working Out/ Answer
Firewood cost \$15.70 a bag. How much did it cost Gwen for 2 bags of firewood and 1 box of fire starters at \$11.65 a box?	
A plain T-shirt costs \$9.30. A patterned T-shirt costs an extra \$2.60. How much for two plain and 3 patterned T-shirts?	
Kyong will pay \$970 for a plane fare, \$995 for accommodation and \$320 for meals. She has saved \$1,900 already. How much more does she have to save for her holiday?	

Party Time

Yellow

Green

Blue

Purple

It's your birthday. Time to plan a party. A party will cost you money. Here you'll find out how much. Click the link to access the digital activity.

<https://static.moneysmart.gov.au/teaching/resources/party-time/index.html>

Imagine that for your next birthday most of your friends and family give you money instead of presents. And in total you get \$50! This is a lot of money, but what will you do with it?

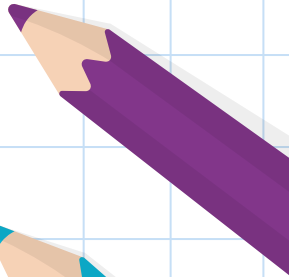

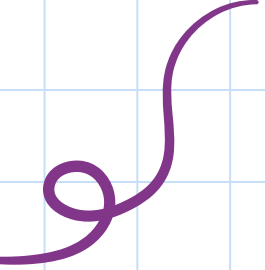

Item:	Price
Shirt	\$24.50
Horse Riding Lesson	\$40.00
XBox Game	\$49.95
Movie Ticket	\$9.90
Basketball	\$25.00
Hat	\$19.95
Roller Skates	\$50.00

Using the list on the previous page, write your answer to the questions below in the space provided

Question:	Answer:
What would you buy with your birthday money?	
How much money do you need to buy what you want from the list?	
How much money do you need to buy everything on the list?	
How much does a shirt, movie ticket and basketball cost in total?	
If you bought an Xbox game, how much of your birthday money would you have left over?	
If you get \$30 for your next birthday, will you save any of it? If yes, how much?	

ThurSday

Activity 1 Instructions

Fill in the coordinate pairs for each picture.
Example: (1, -3)

Tip: Remember to write the x-coordinate first!

CLICK THE BOXES TO TYPE!

Type the coordinate pairs for each item.

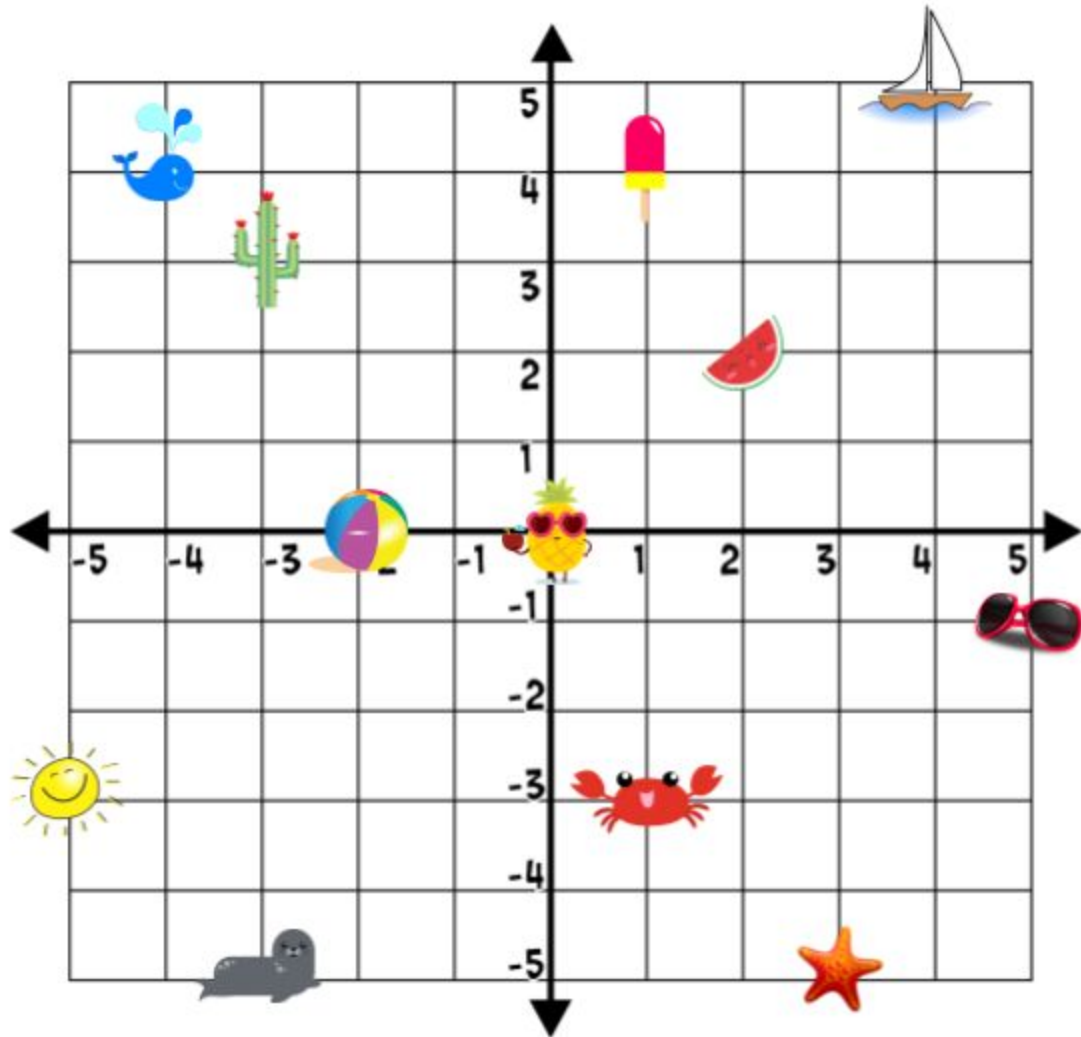

Click the box to type!

Activity 2 Instructions

Drag and drop the image to the correct location on the coordinate grid!

Example: Drag the pineapple to (1, -3)

CLICK AND DRAG!

Drag and drop each image to the correct spot!

$(1, 1)$

$(2, -3)$

$(-2, 1)$

$(-4, -3)$

$(4, 0)$

$(0, 0)$

$(-4, 3)$

$(0, -5)$

$(-3, 5)$

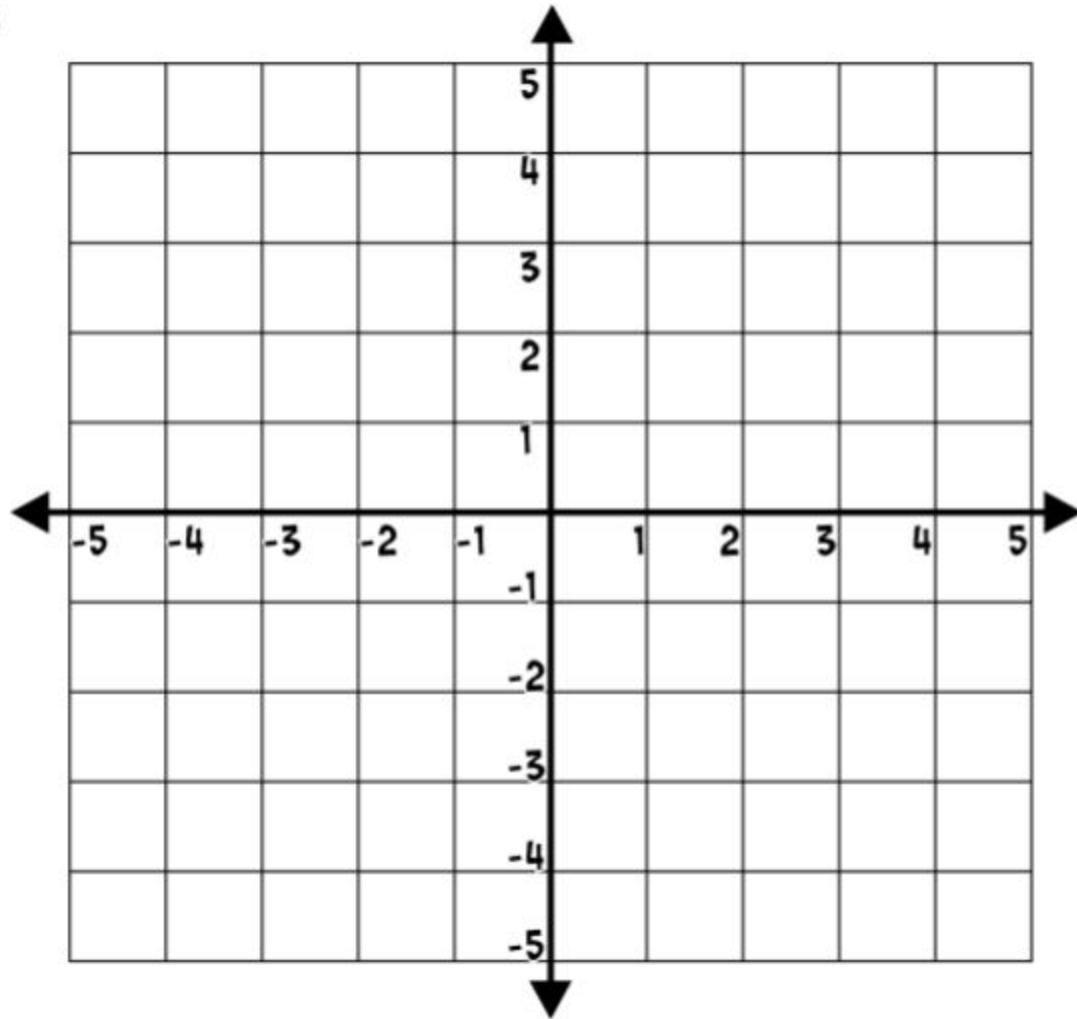

$(2, 4)$

$(4, -5)$

$(5, 5)$

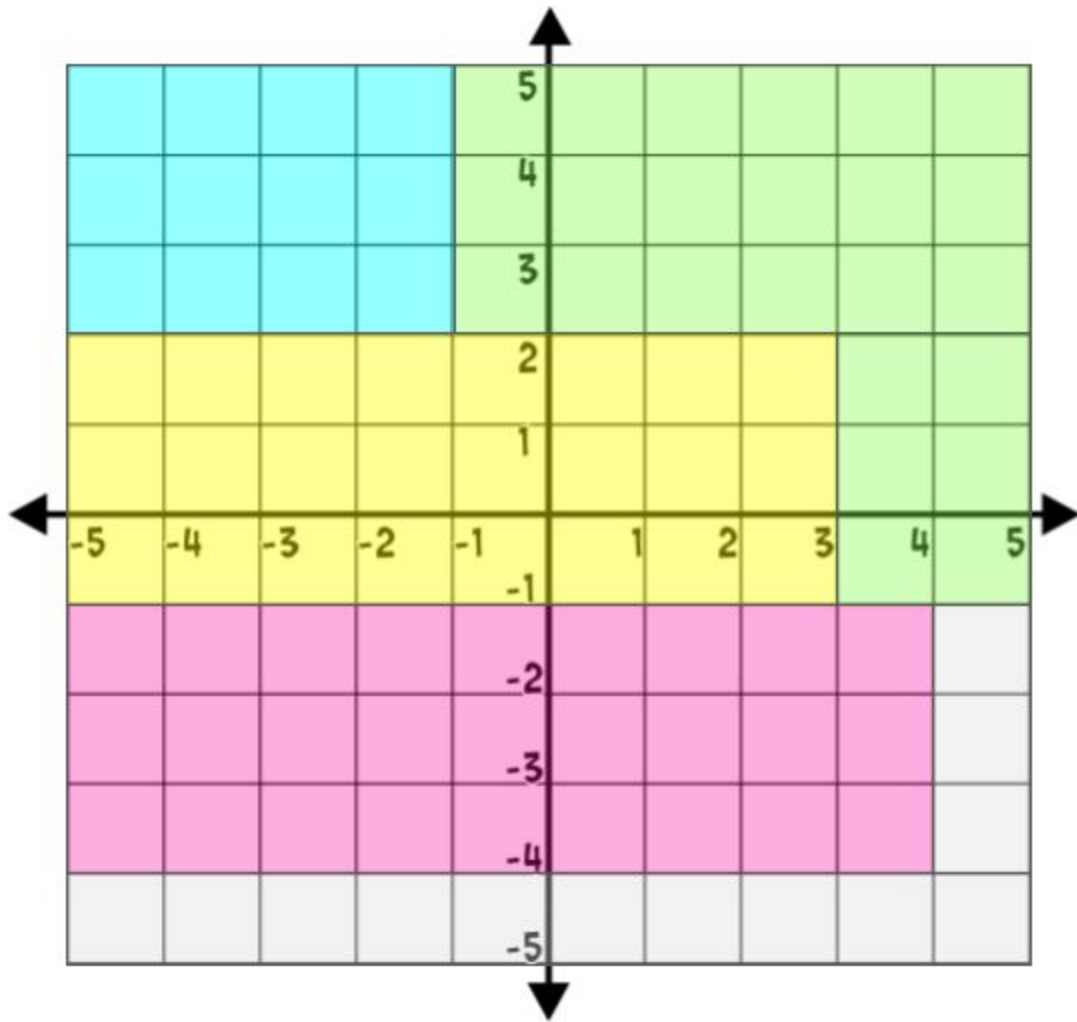

Where Does Everyone Live?

-  Ocean
-  Beach
-  Forest
-  Big City!
-  Mountain Range

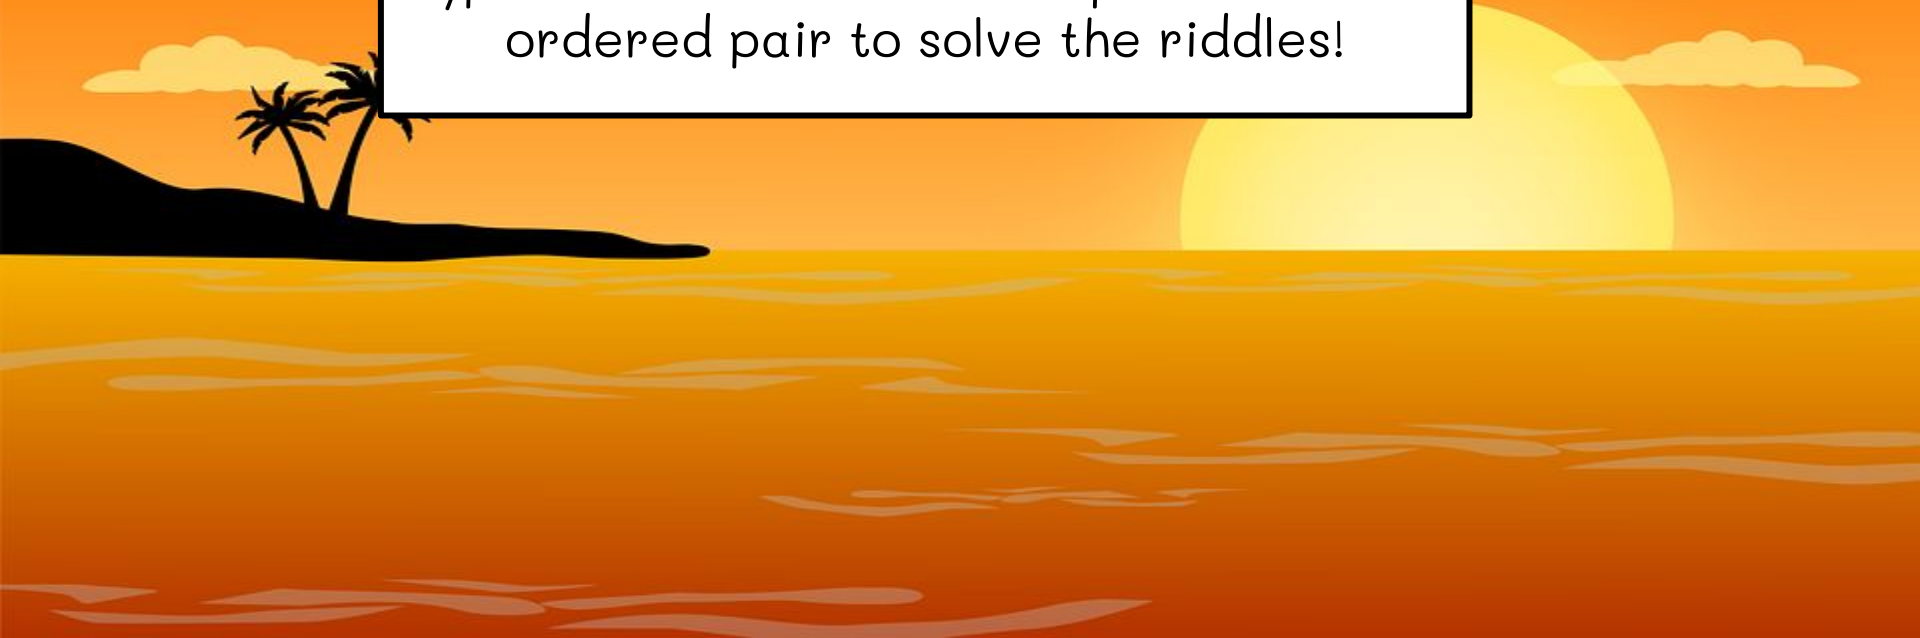

Choose a location and plot each character on the grid. Then, type your coordinates in the boxes!

	<input type="text"/>		<input type="text"/>
	<input type="text"/>		<input type="text"/>
	<input type="text"/>		<input type="text"/>
	<input type="text"/>		<input type="text"/>
	<input type="text"/>		<input type="text"/>

Activity 3 Instructions

Type the letter that corresponds to each ordered pair to solve the riddles!

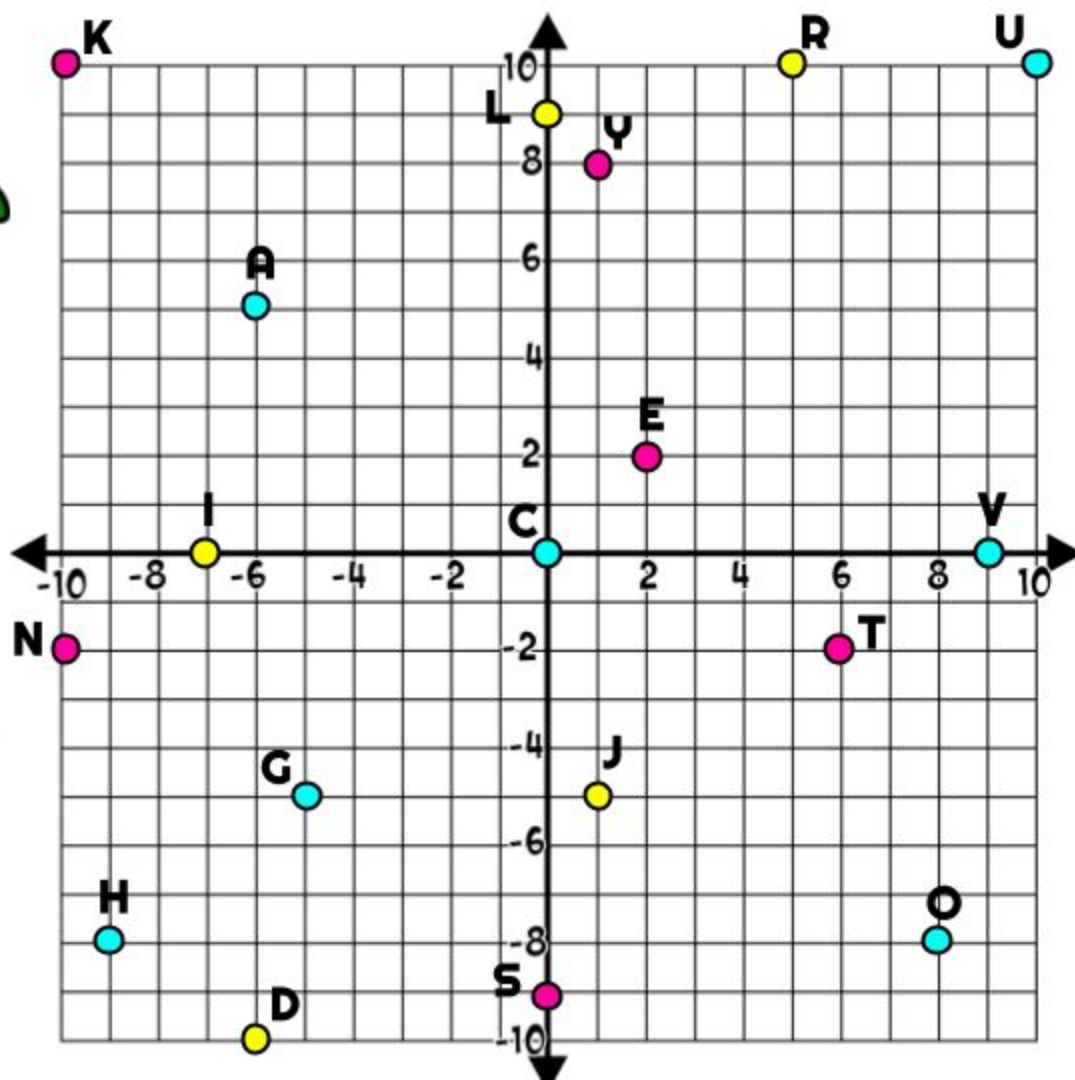

**1. WHAT LIVES IN WINTER,
DIES IN SUMMER, AND
GROWS WITH ITS ROOTS
UPWARD?**

Type the letter that you
find at each set of
coordinates!

$(-6, 5)$ $(-10, -2)$

$(-7, 0)$ $(0, 0)$ $(-7, 0)$ $(0, 0)$ $(0, 9)$ $(2, 2)$

2. A man WAS WALKING IN THE MIDDLE OF A FIELD AND IT STARTED TO RAIN.

HE HAD NO UMBRELLA AND NO HAT, BUT NOT A SINGLE HAIR ON HIS HEAD GOT WET.

HOW IS THIS POSSIBLE?

$(-9, -8)$

$(2, 2)$

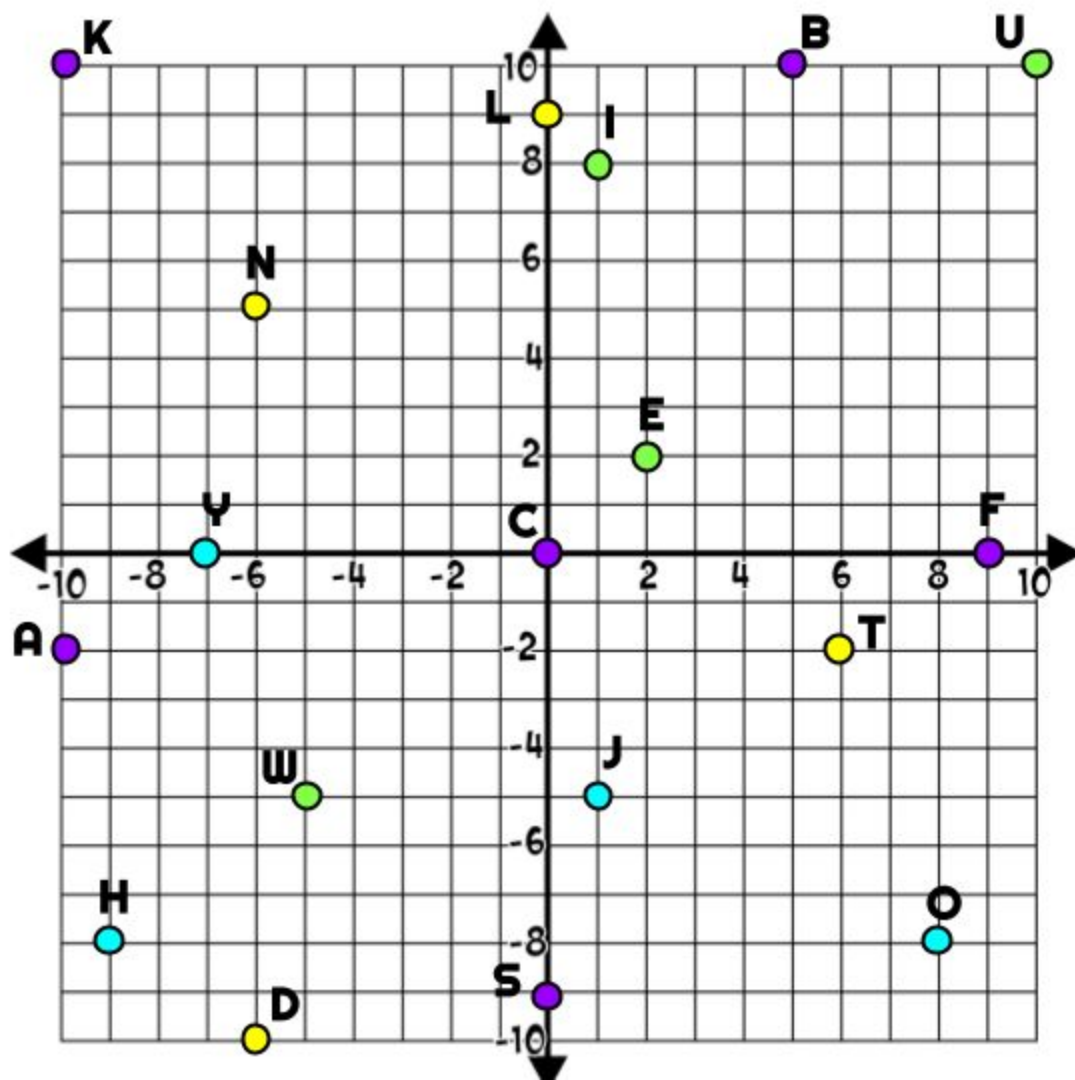

$(5, 10)$

$(-10, -2)$

$(0, 9)$

$(-6, -10)$

LEARNING INTENTIONS AND SUCCESS CRITERIA

Complete and write number sentences involving multiplication and division, including those involving simple fractions or decimals.		Complete and write number sentences involving multiplication and division, including those involving simple fractions or decimals.	
I can complete simple number sentences by finding the missing number.	I can complete number sentences involving multiplication and division	I can complete number sentences involving simple fractions and decimals.	I can use algebraic symbols when completing missing number sentences.

IGNITION ACTIVITY

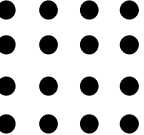

Which number doesn't belong

All but one of these numbers are part of a sequence.

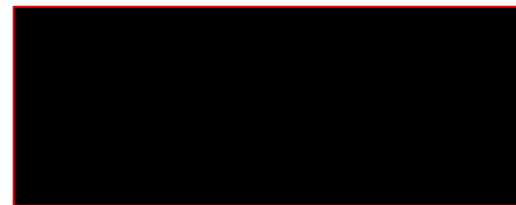

How could you describe this sequence of numbers?
Which number doesn't belong to this sequence? Why?

Answer:

NEWMAN'S PROBLEM INVESTIGATION

Kathy is thinking of a number. The number is less than 12. When the number is divided by 2 the answer is an odd number. When it is divided by 3 the answer is an even number. What number is Kathy thinking of?

Number Sentences to match word problems

6 Write a number sentence to solve the problems. The first one is done for you.

- a Double the number and add 6 to get 14.
- b Multiply the number by 3 and subtract 7 to get 5.
- c Subtract 5 from the number and add 8 to get 10.
- d Divide the number by 5 and add 3 to get 7.
- e Multiply the number by 4 and divide by 3 to give 8.
- f Add 5 to the number and multiply by 7 to get 56.
- g Subtract 15 from the number and divide by 5 to get 3.
- h Add 3 to the number, take away 5 and multiply by 9 to get 63.

$$4 \times 2 + 6 = 14$$

7 Think of a secret number and write some clues so that a friend can work out your secret number.

LET'S WORK TOGETHER TO SOLVE THESE PROBLEMS

Yellow

Green

$$2 \times 3 = 4 + \square$$

$$2 \times 4 = 4 + \square$$

$$2 \times 5 = 4 + \square$$

$$2 \times 6 = 4 + \square$$

$$2 \times 7 = 4 + \square$$

Blue

Purple

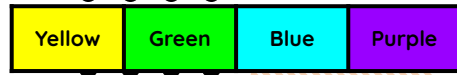

$$8 \times \square = 8.8$$

$$8.8 \div 8 = \square$$

$$\square \times 2.2 = 17.6$$

$$17.6 \div \square = 2.2$$

$$17.6 \div 2.2 = \square$$

What about if we had the operation signs missing,
rather than the numbers.

$$8 \square 4 = 6 \square 6$$

Work out the missing operation signs to make the number sentence correct.

$6 \square 2 = 4 \square 4$
$6 \square 2 = 4 \square 3$
$6 \square 2 = 4 \square 2$
$6 \square 2 = 4 \square 1$

Constructing Number Sentences

Yellow

Green

Blue

Purple

Extension activities

Lesson 4: Constructing Number Sentences

Students make up a set of clues about a number.
Restrict them to five or six clues, but specify that there must only be one number that fits the clues.
Students construct more complex number sentences about numbers.

$$\blacktriangleright 25 = 4 \times 5 + 5$$

$$\blacktriangleright 35 - 5 - 5$$

$$\blacktriangleright 100 \div 2 - 25$$

Make up three different number sentences for the number 50.

1.

2.

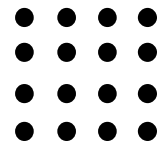

3.

Make up three different number sentences for the number 80.

1.

2.

3.

INDEPENDENT ACTIVITIES - Year 5 and 6

Yellow

Complete the following questions

a) $22 + \underline{\hspace{2cm}} = 55$

b) $\underline{\hspace{2cm}} \times 5 = 150$

c) $20 \times \underline{\hspace{2cm}} = 80$

d) $122 + \underline{\hspace{2cm}} = 126$

e) $189 - \underline{\hspace{2cm}} = 120$

f) $\underline{\hspace{2cm}} + 56 = 135$

g) $49 \div \underline{\hspace{2cm}} = 7$

h) $12 \times \underline{\hspace{2cm}} = 144$

i) $\underline{\hspace{2cm}} + 11 \times 3 = 66$

Green

Complete the following questions

a) $82 + 18 = 5 \times \underline{\hspace{2cm}}$

b) $125 - \underline{\hspace{2cm}} = 4 \times 5$

c) $\underline{\hspace{2cm}} - 16 = 32 + 8$

d) $120 \div 4 = \underline{\hspace{2cm}} - 15$

e) $30 \times 2 = 120 \div \underline{\hspace{2cm}}$

f) $45 - \underline{\hspace{2cm}} = 5 \times 3$

g) $180 \div \underline{\hspace{2cm}} = 9 \times 10$

h) $220 - 50 = 170 \times \underline{\hspace{2cm}}$

i) $300 - 50 - 30 = \underline{\hspace{2cm}} \times 2$

Using algebraic expressions

How to Solve an Equation

There is no "one perfect way" to solve all equations.

A Useful Goal

But we often get success when **our goal** is to end up with:

$$x = \text{something}$$

In other words, we want to move everything except "x" (or whatever name the variable has) over to the right hand side.

Example: Solve $3x - 6 = 9$

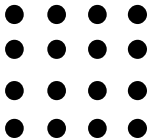

Start with: $3x - 6 = 9$

Add 6 to both sides: $3x = 9 + 6$

Divide by 3: $x = (9 + 6) / 3$

Now we have $x = \text{something}$,

and a short calculation reveals that $x = 5$

INDEPENDENT ACTIVITIES

Blue - YEAR 6

Complete the following questions

$$\boxed{} + 96 = 302$$

$$17.8 + \boxed{} = 64$$

$$\boxed{} - 317 = 508$$

$$67.3 - \boxed{} = 48.5$$

$$\boxed{} \times 31 = 1736$$

$$2.5 \times \boxed{} = 11.75$$

$$\boxed{} \div 56 = 47$$

$$86.7 \div \boxed{} = 10.2$$

$$347 + \boxed{} = 628$$

Purple - EXTENSION

Complete the following questions

1) $4x - 1 = 31$

2) $3x - 4 = 29$

3) $6x - 5 = 31$

4) $8x - 2 = 46$

5) $2x - 7 = 21$

6) $7x - 3 = 18$

7) $9x - 4 = 32$

8) $5x - 1 = 64$

9) $12x - 9 = 39$

10) $2x - 1 = 2$

11) $4x - 8 = 10$

12) $15x - 2 = 3$

Week 3

MINDSET MONDAY

Challenging your mindset

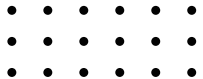

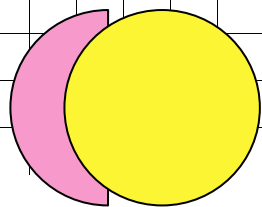

LEARNING INTENTION:

You will learn about fixed and growth mindsets, as it will remind you to put in effort to improve your skills.

SUCCESS CRITERIA:

You will be able to apply your understanding of fixed and growth mindsets to your own life to help you improve your skills and increase your ability.

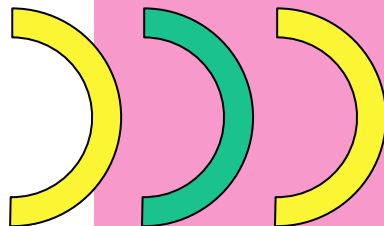

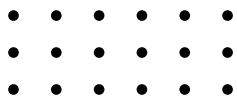

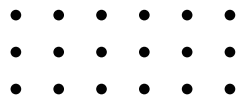

DID YOU KNOW?

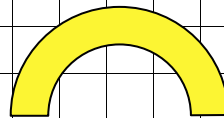

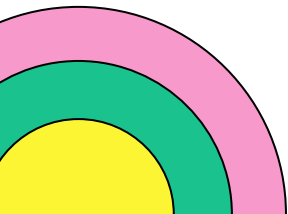

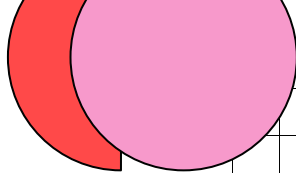

Psychologist Carol Dweck's growth mindset theory emphasises the importance of believing in our capacity to grow our skills and abilities, as opposed to having a fixed set of skills. Having a growth mindset means you believe that you can develop your abilities by working hard. It is important that you understand you can always progress from where you are now.

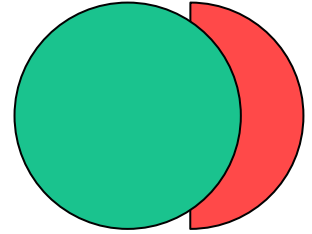

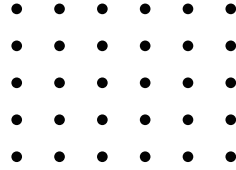

RESEARCH

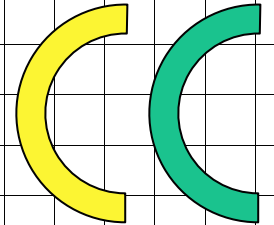

Research examples of famous people who have had to work hard to get where they are. Write a summary of what you found and present it digitally on the next slide or hard copy.

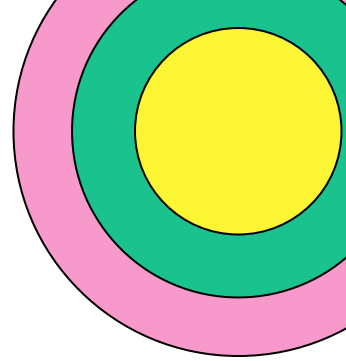

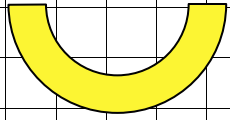

YOUR TASK:

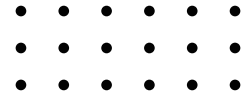

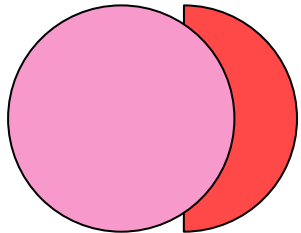

Create your own, or research existing sayings or quotes that you can repeat to yourself when something feels too hard or you face a challenge. You might choose to display it on a slide in the slideshow or create your own hand drawn poster. On the following pages you will see some examples of famous quotes for inspiration...

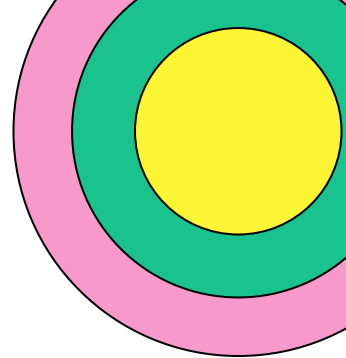

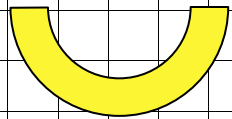

**“Mistakes are proof
that you are trying.”**

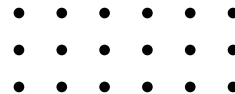

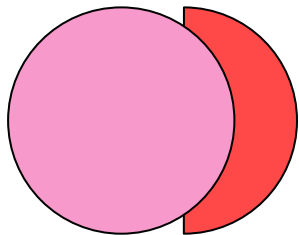

—Unknown

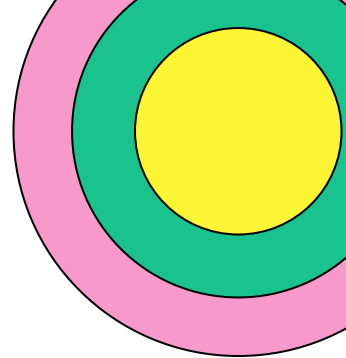

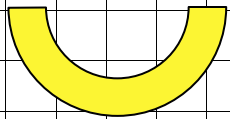

"Success is not an accident.
Success is a choice."

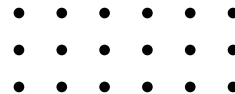

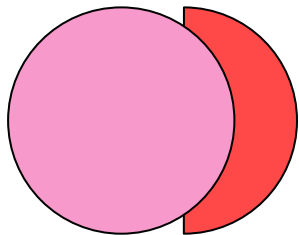

—Stephen Curry

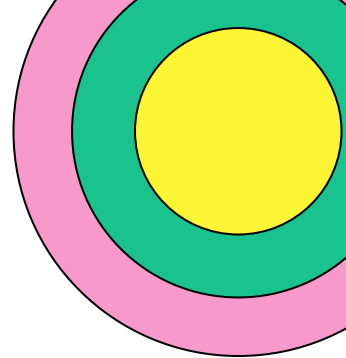

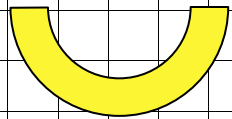

***"There is a difference between not
knowing and not knowing yet."***

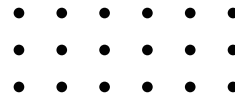

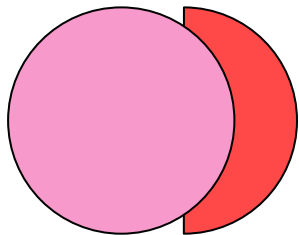

—Sheila Tobias

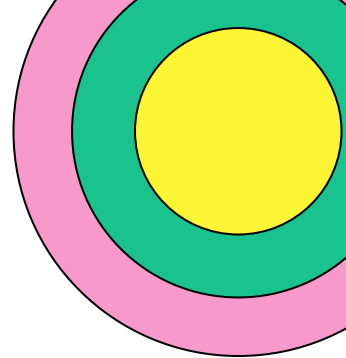

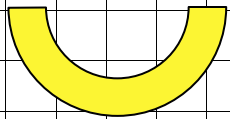

"In the middle of difficulty
lies opportunity."

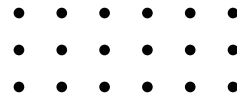

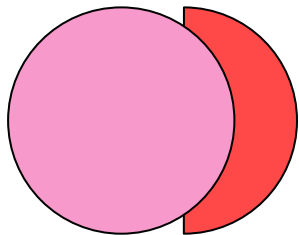

—Stephen Curry

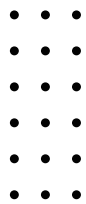

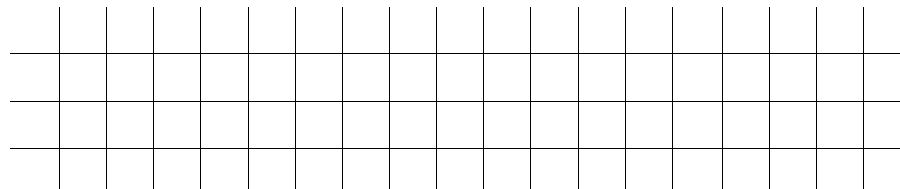

**"JUST BECAUSE YOU HAVEN'T
FOUND YOUR TALENT YET
DOESN'T MEAN YOU DON'T
HAVE ONE."**

—Kermit the Frog

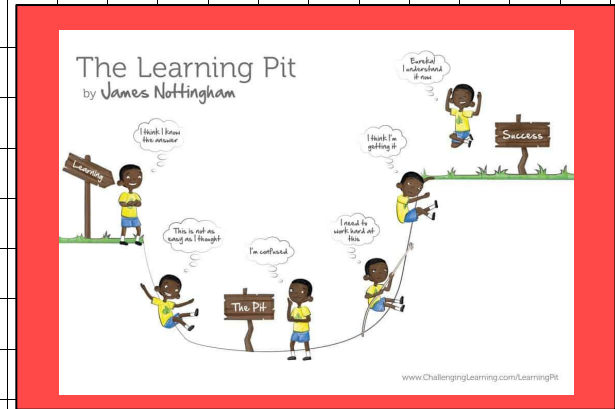

YOUR TURN...

THINK ABOUT IT FRIDAY

Challenging your mindset

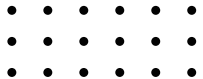

LEARNING INTENTION:

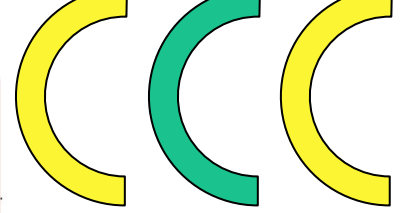

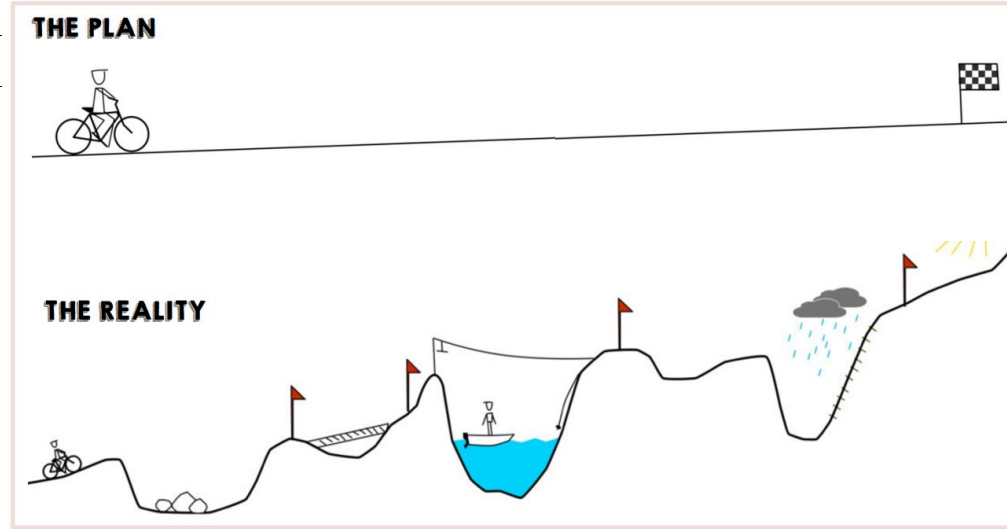

You will learn about fixed and growth mindsets, as it will remind you to put in effort to improve your skills.

SUCCESS CRITERIA:

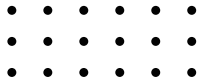

You will be able to apply your understanding of fixed and growth mindsets to your own life to help you improve your skills and increase your ability.

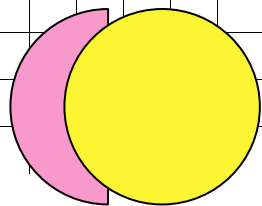

Explain what is meant by the statement 'success is not linear' using the below graphic:

Write your answer here...

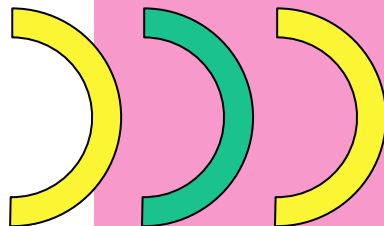

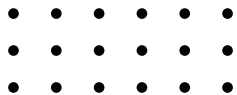

HOW DO I DEFINE success?

To experience success is to achieve your desired outcome. What success actually looks like long term, however, is different for everyone. What is your definition of success? Do you measure it by happiness, wealth, academic achievement, health, or family?

Identify the key rules for life as outlined by US Navy Admiral, William H. McRaven in his 2014 speech:

Write here...

Write here...

Write here...

Write here...

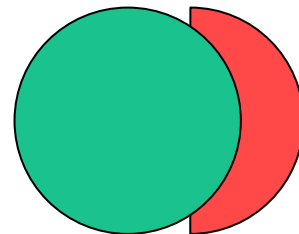

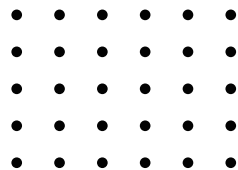

Write here...

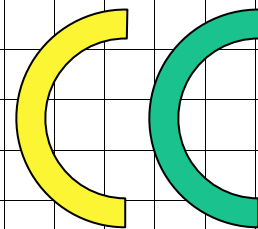

Write here...

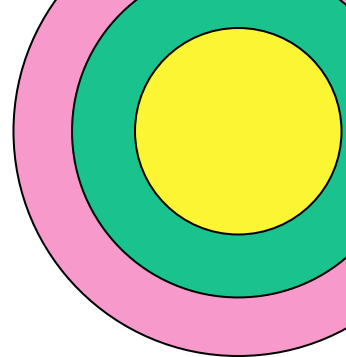

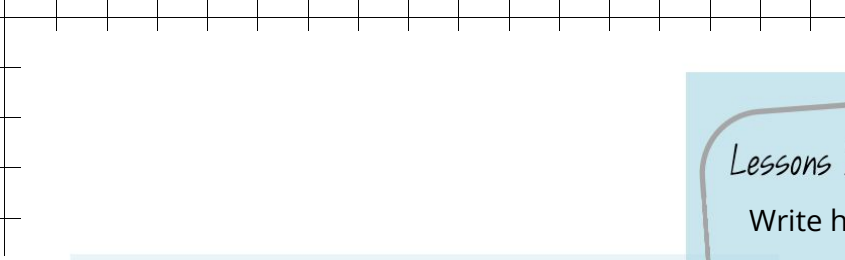

YOUR TASK:

You have reached the final day of online learning! Reflect on the past 9 weeks and use your experiences to help plan and guide what you want to achieve in the last 8 weeks of school this year. Year 5, this is your opportunity to set yourself up for success next year and Year 6, this marks your last term in Primary School. What legacy do you want to leave at Edgeworth?

Previous life challenges I

Habits I wish to change or build

Write here...

A graphic on a light blue grid background. A large, red, irregular blob shape is in the center. Inside the blob, the text "Wellbeing Wednesday" is written in a white, rounded, sans-serif font. Below this, "Week 3" is written in a black, handwritten-style font. Surrounding the central blob are several colorful pencils (purple, blue, yellow, green, red) and small paper clips (yellow, purple, blue, green) with wavy lines trailing behind them, suggesting movement or drawing.

Wellbeing Wednesday

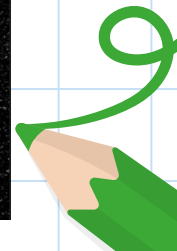

Week 3

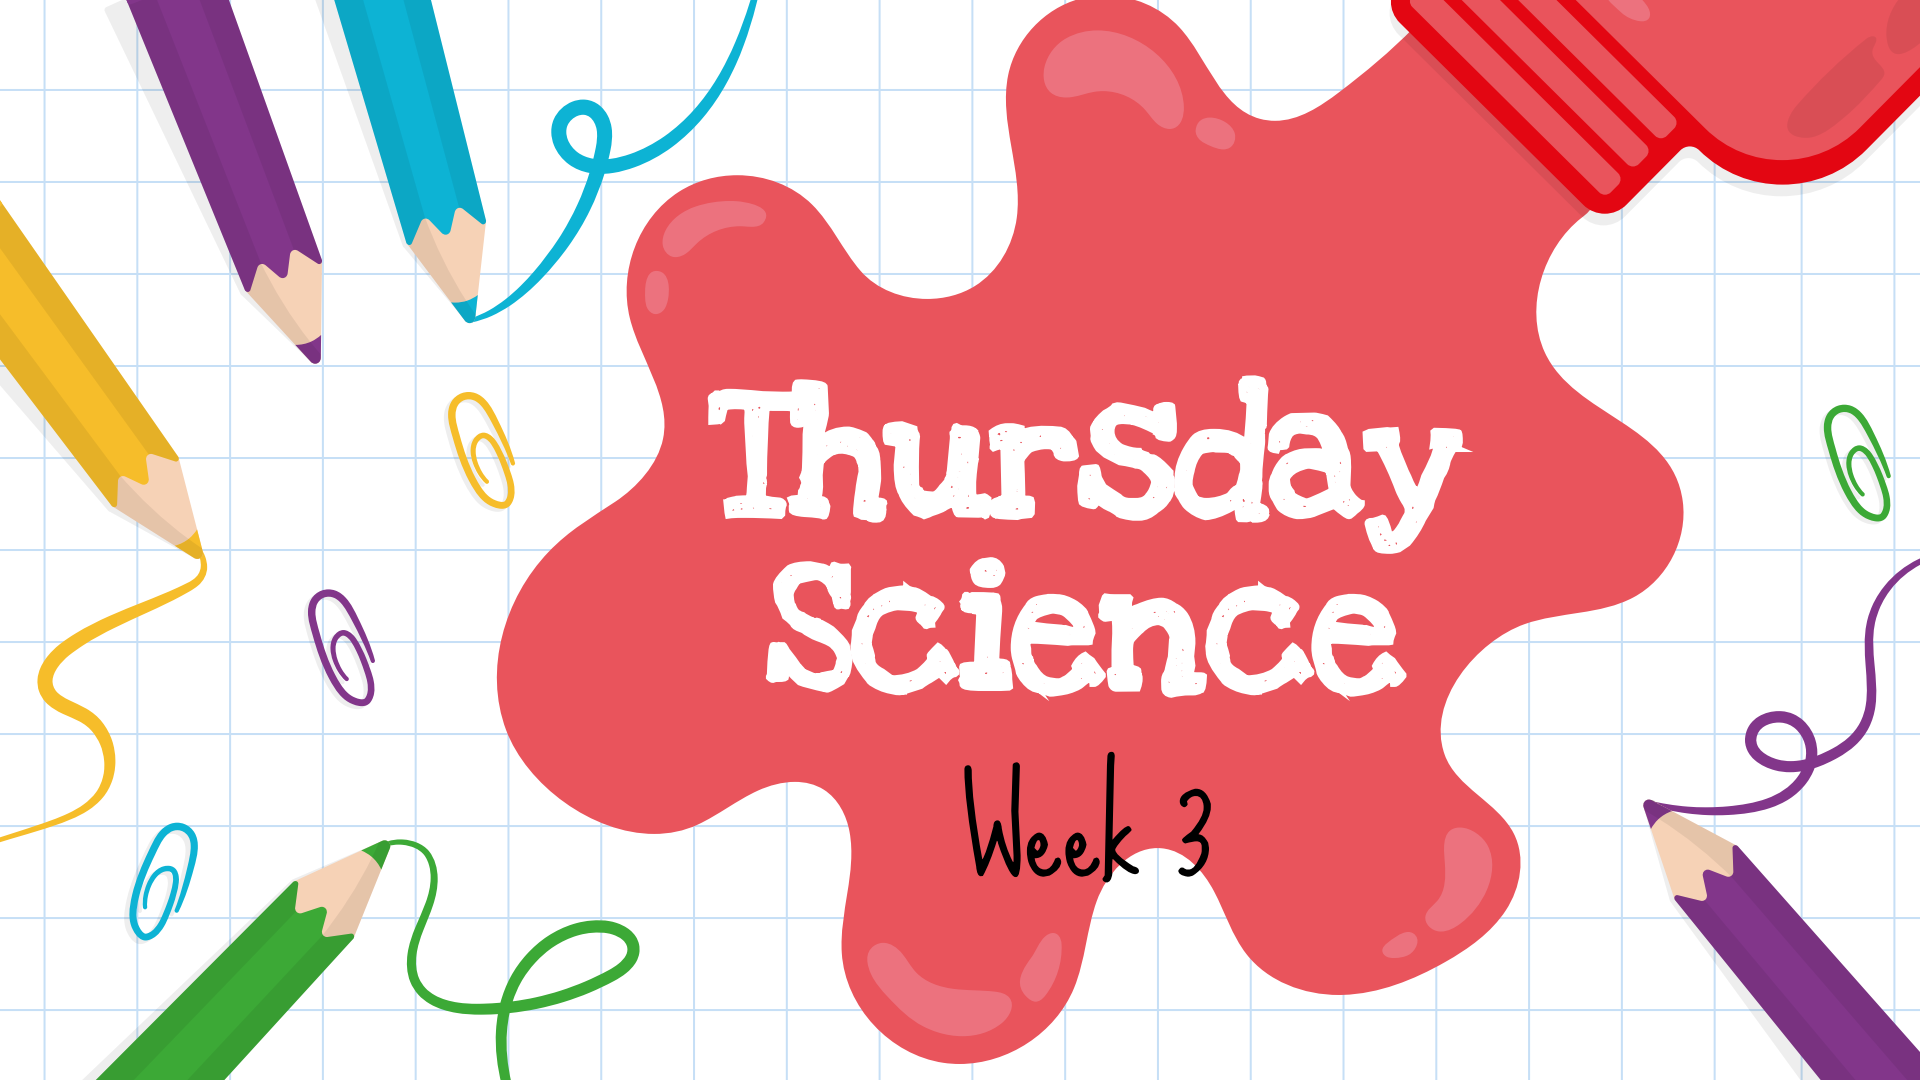

Wellbeing Wednesday

WELLBEING WEDNESDAY

Physical	Create your own obstacle course, dance routine or new game.	Spend some active time with your pets. Teach them some new tricks.	Design a new backyard game with modified equipment.
Creative	Make your own healthy treat. It could be fruit salad, a trail mix, muffin or slice.	Build your own pillow fort and spend some time in it with your siblings or teddies.	Listen to your favourite songs. Try and paint or draw how the music makes you feel.
Nature	Use natural materials to create an artwork.	Have a backyard picnic with some of your favourite picnic foods. You might even theme the event!	Go on a nature scavenger hunt. How many different leaves can you find?
Cognitive	Write a poem about how you are feeling and recite it to someone.	Help someone in your family fix something that's broken. What did you learn?	Spend 20 minutes reading something different aloud to a family member, pet or toy.
Social	Design and make a friendship bracelet.	Cook your favourite dish. Explain to the family what the steps were to make it.	Find a penpal (it could be a family member, friend or neighbour). Send them a letter in the mail.

Thursday Science

Week 3

Make sure you have 3 different varieties of bread and their wrappers; including 1 yeast-free variety (eg, chapatti, tortilla, roti, lavash)

TWLH chart about micro-organisms

What we think we know	What we want to learn	What we learned	How we know
Copy this table into your Science books and discuss and fill in as much as you can as a class group.			

Look at the different types of bread (still in wrappers so we can read the names on the labels). Have you ever eaten any of the breads before? Share the names of breads you like to eat.

Record responses on cards or paper strips to begin a word wall. Add words from different languages to the word wall if you find any throughout the topic.

Discuss a heading for this collection of words, for example, types of bread.

Today we'll be using our senses of sight, touch, smell and taste in making observations.

Why do you think it is important to get evidence from real observations?

You will also be looking at bread labels to find out more about the key ingredients in bread.

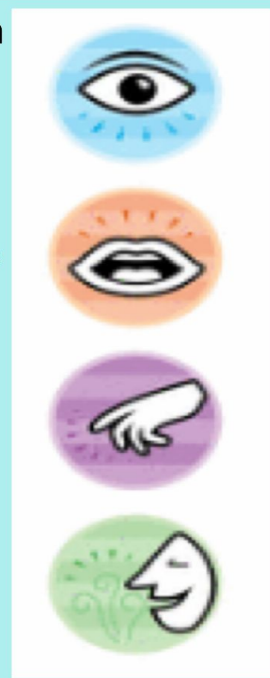

What are the various parts of a food label?

Name of the food, nutrition information, date marking, country of origin and ingredients list.

Australian food standards require ingredients to be listed in descending order of weight, so the major ingredient always comes first on the label.

Why is this information important?

For example, some people have food intolerances, allergies or special dietary requirements as followers of certain religions.

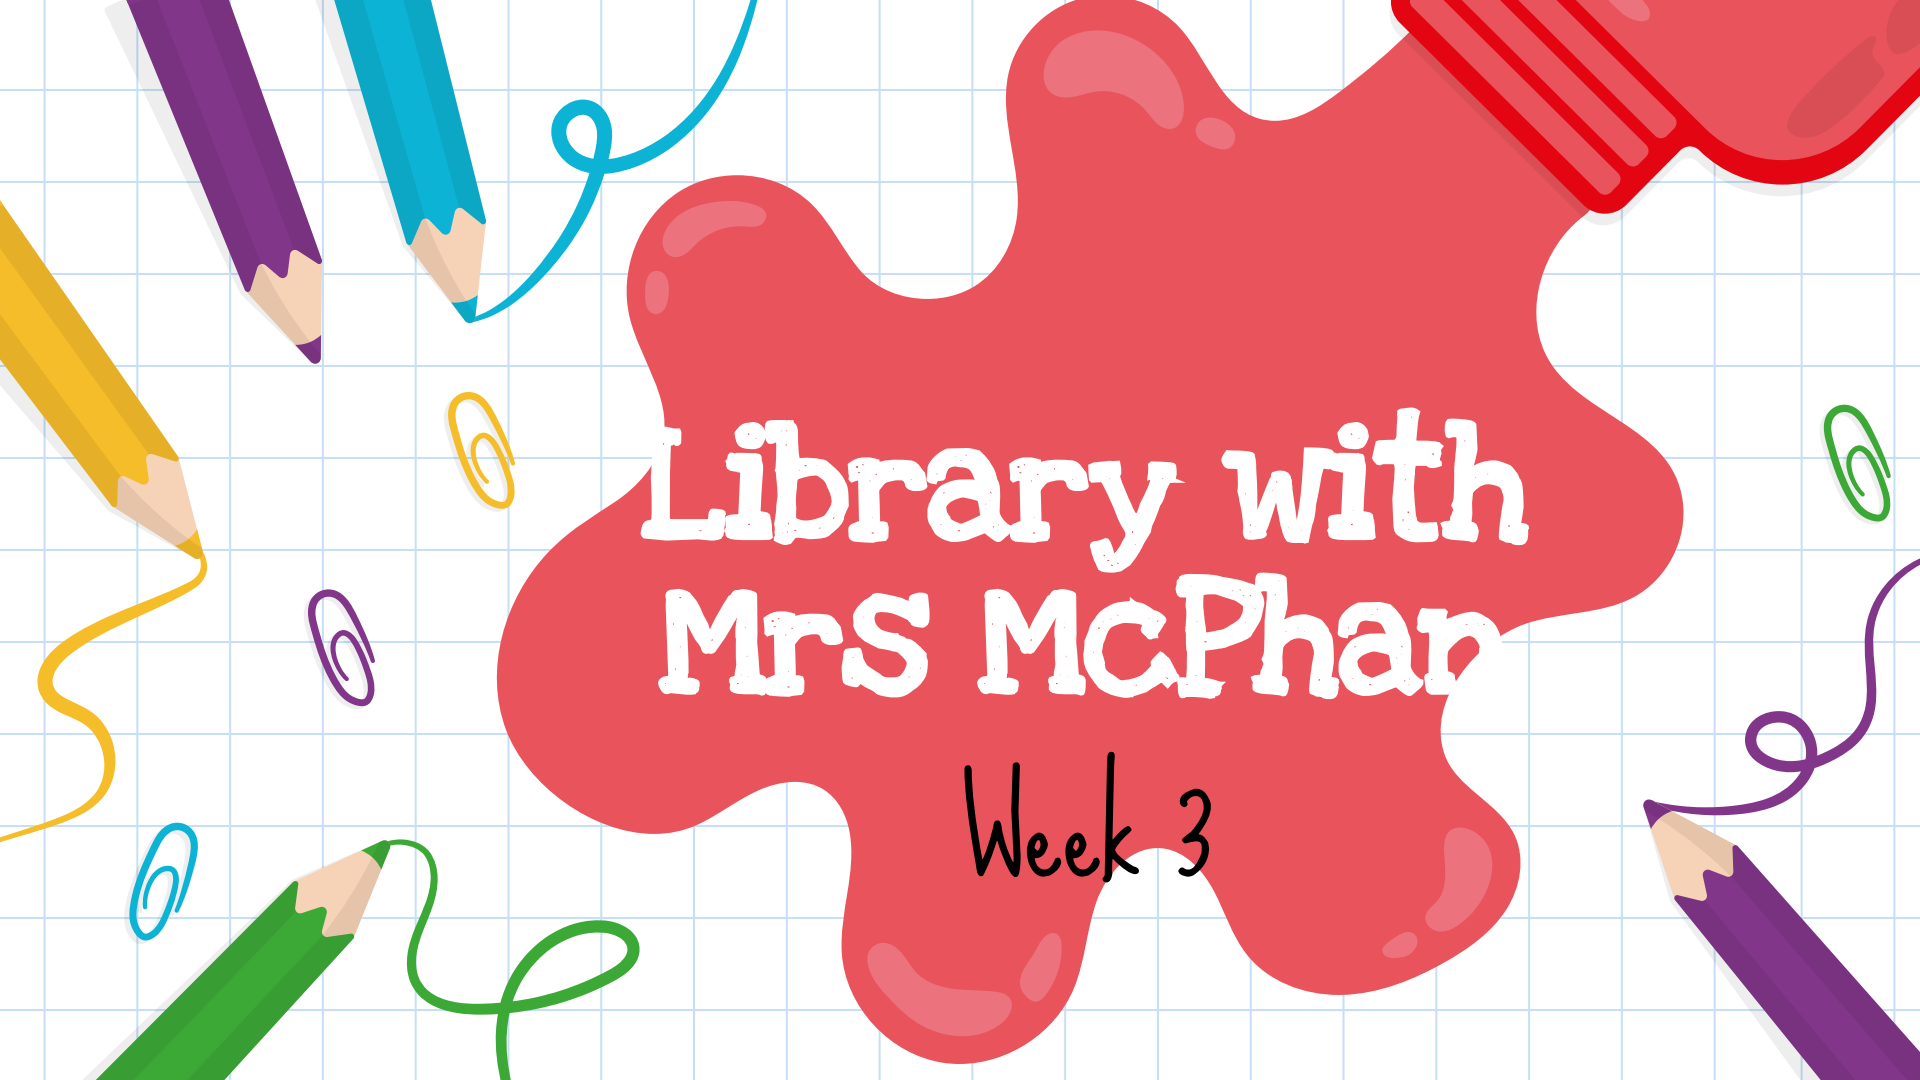

Observation record: Exploring bread

Library with Mrs McPhar

Week 3

The Great Desert Island STEM CHALLENGE

Library

Term 4, Week 3

Not so long ago, a group of adventurous travelers set sail for a week on the open seas. The skies were clear and blue. The water peaceful and calm - The ideal conditions for a relaxing voyage.

Unfortunately, on the second night, a great storm came upon the group while they slept in the cabin below deck. The violent storm tossed the passengers from one side of the ship to the other. The captain tried to take control but was knocked overboard by a massive wave!

Eventually, the ship came to a crashing halt when the storm threw it onto the rocky shore of a deserted island. Sadly, only one traveler survived the ordeal - Sir Harley Houndstooth III. He dragged himself onto the beach and looked around, wondering what to do next.

It is now your job to help him survive the island and get back to the civilized world. Are you up to the challenge?

Day 7: Today marks one week in this rotten place. It is hot, dangerous, and lonely. Oh, how I wish to go home! I wonder if anyone knows what happened to our ship or is looking for survivors. Surely my family misses me by now. If there is any hope of being rescued, I must let someone know that I am here.

Perhaps I could send a message in a bottle. Does that really work? I must try. It's my only chance. If I could just find a bottle of some sort...

STEM challenge - Message in a bottle

Plan, design and build a watertight container that will float.
Design a waterproof container

Your container must :

- Have a labelled plan that you have designed and followed when constructing.
- Be watertight - test your container in water to make sure water cannot get inside it.
- Floats on water - remember if it sinks, no one will find our message asking for help!

Suggested Materials:

- foil
- plastic wrap
- toilet paper rolls
- paper
- masking tape
- straws
- scissors
- rulers
- tub of water

Draw your plan here:

This is our last lesson working from home.

Our library unit of work will continue at school.

See you next week!
